## RECOMMENDATION LETTER

August 2019

To whom it may concern:

I would like to recommend Ivanov Machado dos Santos for a place at your educational institution. I was his teacher in the Object-Oriented Programming Language course in the Vocational Informatics Program Integrated to the High School and supervised his PIPA Project (Intervention, Research and Action Projects) named Development of Software and Hardware to Control Participants in IFB Events, in which Ivanov stood out in the development of activities. It is noteworthy that his team won one of only two vacancies available throughout the IFB network.

Ivanov has always been honest and demonstrated great potential inside and outside the classroom, being one of the few high school students at the Federal Institute of Brasilia to participate in research projects.

Should you need more information about him, please contact us.

[End of document]

This is a true and complete translation of the aforementioned document, I so certify.  
IN WITNESS WHEREOF, I set my hand and affix my seal of office.
