MINISTRY OF EDUCATION

Federal Institute for Education, Science and Technology of Brasilia

RECOMMENDATION LETTER

Brasilia, 31 July 2019.

I hereby declare for all due purposes that from September/2017 to July/2019, as the Coordinator of Pedagogical Support in the Vocational Courses integrated to High School, I followed up the academic status of student Ivanov Machado dos Santos, who currently attends the 3rd Year B of the Vocational Program of Computer Technician Integrated to the High School of IFB - Federal Institute of Brasilia, Brasilia campus.

Ivanov Machado dos Santos was one of the finalists from the Federal District to the Mercosur Youth Parliament 2018/2020, where four candidates per state competed for the place. The aforementioned student went through a careful selection and had his project selected among the best in the Federal District. The Mercosur Youth Parliament is a selection of 27 young Brazilians representing Brazil in Mercosur.

Ivanov submitted the project entitled "Citizen Participation for Brazil", which aims to help students throughout the Federal District to have a higher academic performance. The priority areas of his project involve Sociology, Philosophy, History and Geography. The main idea is to mediate between teachers and students to help them build personalized content for more effective learning.

In addition, the student has been participating in other activities developed at IFB where he has shown prominence in research projects guided by teachers of the informatics program of the Federal Institute. The student's history at IFB has been marked by commitment, determination and creativity in his academic career.
